from Iloilo state that there is great tension between the Visayans and Tagalos, growing out of the Tagalos holding Ara-neta, a leader of the Visayans, a prisoner the threatened Visayan revolt against Tagalo domination a month ago. The Visayans are incensed to the point of rebellion. While the Tagalos nominally centrol only the military organization of the so-called Filipino republic, they have crowded out the Visayans from the civil branch, whereat there is great discontent. The Tagalos are reported to be concen trating troops on Panay at Santa Bar-bara, where Delgado, chief of the revolutionary government, commands, with a view to putting themselves in a position to suppress the Visayans. Four thousand Tagalos, who have been held in reserve at Capiz in the northern part of the province of Panay, last week embarked in cascoes, the fleet's purpose being to land at Conception, where the troops would march to Santa Barbara. Adverse winds prevented the landing, however. Gen. Palion's

In a private letter received from Manila one of the officers of the commissary department there makes the important statement that with the opening of the present campaign it will be possible to secure all of the live cattle necessary to send forward with the various columns operating from Manila. He says that cattle can be secured from Singapore and Tiensien within ten days of cabling, and that there is an abundance of native beef of very satisfactory quality to be found in

the islands south of Luzon. In addition, he observes that it is not likely that any arm of the service, except the cavalry, will be called upon to operate very far from the railroads, as Aguinaldo himself must stick comparatively close to the railroad line to prevent trespassing upon the territory of his old enemies, the hill tribes, of whom he late Spanish war as a filibuster and blockstands in quite as much fear as he does

CHURCH PROPERTY IN CUBA.

Bishop of Havana Hopes for Better Things from Americans Than Spaniards.

Havana, Oct. 16.-The Bishop of Havana to-day said the public had hitherto heard only one side of the church story, and he requested the Associated Press to say that the church does not hold any property or receive any income to which it is not entitled. In some cases, said the bishop, where money had been left to certain religious societies for masses, and these societies had ceased to exist, the hurch had undertaken to say the masses, taking over as payment the property left. The bishop declared that the Cubans are not more hostile to the church than are the Spaniards, who pillaged church property whenever they could find an exuse for doing so. Protests made through Reme to the Madrid government remained unheeded, but negotiations are now going on with the government in Washington in certain questions relative to church property in Cuba, and it is expected that the American authorities will show more justice than had been shown by the Spaniards.

The bishop declared that the church had not refused to prove title to property which is now held. All the church asks, he says, is that its property be respected he same as the property of any other in-

MANILA PLOT SUPPRESSED.

Three Native Policemen Arrested or Information from Comrades.

Manila, Oct. 15-9:10 a. m .- The authorities were informed yesterday from reliae sources that an outbreak in the poore istricts of Manila had been carefully planned for daylight on Sunday. It failed to occur, probably on account of the vig-orous measures enforced. Many natives of the Tonds district left, taking their valuables. All the small shops, which the guards usually forced to close at 8:30 p. m., were shut at sunset. A general feeling of uneasiness was apparent.

The guards of the city were doubled and a strong force stationed at the slaughter-house, the center of an unruly section. The guns of the Sixth Artillery were stationed near by at a point com-manding the native quarter. The commanders of the reserve troops were ordered to be prepared for a call at day-

San Francisco, Oct. 15 .- The steamer Gaelic brings the following advices from Honolulu, under date of October 8: The hospital ship Relief and the trans ports Tacoma, Sherman, and Grant have all departed for Manila. Previous to the departure of the Tacoma, the military authorities caused a search to be made for five soldiers of the hospital corps sta-tioned here, who had stowed themselves away on board the ship in hope of getting to Manila. It is thought that the other

two missing men are on the Tacoma. The Sixth Artillery batteries stationed here have lost between twenty and thirty men in the last few days by desertion. All the soldiers here are anxious to be sent to Manila. The men think they can steal aboard a transport and on arrival report to the officers of the Sixth at Manila and escape with slight punishment. The soldiers are willing to stand thirty days in the guardhouse for the sake of

getting to the scene of the war.

The British ship Antiope, which has been in port since July, will probably be kept here for months longer. Capt. Murray, who owns and commands the vessel, desires to take her to the Sound for a cargo of coal, but she is held here by the agents of W. R. The horses started as fresh, spirited animals, brought from Nevada and Oregon. They arrived thin and jaded, a large proportio of them only kept alive by stimulants. About twenty gallons of alcohol were given the horses during the Centennial's trip. The animals were unloaded here and will be turned out to pasture until the return of the transport from San

RELIGION HIS ONLY SAFE REFUGE

Just as the Stag Plunges Into the Water to Escape the Pursuing Pack and Be Refreshed, So Man Should Cast Himself Consoling Love and Mercy and See His Sorrows Assuaged - Church Services.

Rev. Dr. T. De Witt Talmage took for his subject 'Sunday "The Deer Hunt.' Text: Psalm xili:1: "As the hart panteth after the water brooks." He said

'David, who must some time have seen deer hunt, points us here to a hunted stag making for the water. The fascinat-ing animal, called in my text the hart, is the same animal that in sacred and pro-fane literature is called the stag, the roebuck, the hind, the gazelle, the reindeer. In Central Syria in Bible times there were whole pasture fields of them, as Solomon suggests when he says: 'I charge you by the hinds of the field. Their antlers jutted from the long grass as they lay down. No hunter who has been long in 'John Brown's track' will wonder that in the Bible they were classed among clean animals, for the dews, the showers, the lakes, washed them as clean as the sky. When Isaac, the patriarch, longed for venison. Esau shot and brought home a roebuck. Isaiah compares the sprightli-ness of the restored cripple of miliennial times to the long and quick jump of the stag, saying: "The lame shall leap as the hart.' Solomon expressed his disgust at a hunter, who, having shot a deer, is too be over 800 in the great wilderness. So lazy to cook it, saying: The slothful man near are they to each other that your

"But one day David, while far from the home from which he had been driven, and sitting near the mouth of a lonely cave where he had lodged and on the banks of pond or river, hears a pack of hounds in swift pursuit. Because of the previous silence of the forest the clangor startles him, and he says to himself: 'I wonder what those dogs are after.' Then there is a crackling in the brushwood and the loud breathing of some rushing wonder of the woods, and the antlers of a deer rend the leaves of the thicket, and by an instinct which all hunters recognize, plunges into a pond or lake or river to cool its thirst, and at the same time by its capacity for swifter and longer swimming, to get away from the foaming harriers.

"David says to himself: 'Aha, that is myself! Oh, the hounds, the hounds! But look there,' says David, 'that hunted deer has splashed into the water. It puts its hot lips and nostrils into the cool wave that lips and nostrils into the cool wave that washes the lathered flanks, and it swims all wrong. "Some of you have just come from the Adirondacks, and the breath of the balsam and spruce and pine is still on you. The Adirondacks are now populous with hunters, and the deer are being slain by the score. Once while there, talking with a hunter, I thought I would like to see vnether my text was accurate in its illuon, and as I heard the dogs baying a little way off, and supposed they were on the track of a deer, I said to the hunter, in rough corduroy: 'Do the deer always has issued a decree declaring the late make for the water when they are pur-'Oh, yes, mister; you see they are a hot and thirsty animal, mixing public with private affairs and they know where the water is, and when introducing unlawful currency, and has they hear danger in the distance, they predered the public attorney to proceed lift their antiers and snuff the breeze against his heirs and all whom it may and start for Racquet or Loon or Saraconcern, commencing by attaching the nac; and we get into our cedar-shell boat or stand by the "runway" with rifle loaded ready to blaze away.'

Why, do you not know the finer a deer, and the more elegant its proportions, and the more beautiful its bearing, the more anxious the hunters and the hounds are to capture it? Had that roebuck a ragged fur, and broken hoofs, and an obliterated eye, and a limping gait, the hunters would have said, 'Pshaw! don't let us waste our ammunition on a sick deer.' And the hounds would have given a few snifts of the track, and then darted off in another direction for better game. we could, and tried to be useful, and why

The eldest son, having the first choice, chose the vase of quets spread, and the rescuer loaded with gold, on which was written the word presents. 'empire,' and when opened, it was found to contain human blood. The second son, making the next choice, chose the vase of amber, inscribed with the word 'Glory,' and, when opened, it contained the ashes of those who were once called great. The third son took the vase of clay, and, opening it, found it empty, but on the bottom of it was inscribed the name of God. I have nothing against this world. I have been one of the most fortunate, or, to use a more Christian word, one of the most blesso! of men-blessed in my parents, blessed in the place of my nativity, blessed in my health, blessed in my fields of work, bless-ed in my natural temperament, blessed in my family, blessed in my opportuni-ties, blessed in a comfortable livelihood, blessed in the hope that my soul will go to heaven through the pardoning mercy of God, and my body, unless it be lost at come after me. Life to many has been a disappointment, but to me it has been a pleasant surprise, and yet I declare that if I dld not feel that God was now my friend and ever present help, I should be wretched and terror-struck. But I want more of him. I have thought nore of film. I have thought over this text and preached this sermon to myself until with all the aroused energies of my body, mind, and soul, I can cry out: 'As the hart panteth after the water brooks, so panteth my soul after Thee, O God.'

'We are told in Revelations, xxii:15, 'Without are dogs," by which I conclude here is a whole kennel of hounds outside the gate of heaven, or, as when steps, waiting for him to come out; so the roubles of this life may follow us to th hining door, but they cannot get in Without are dogs.'

Dogs Fit for Beaven.

"I have seen dogs, and owned dog that I would not be chagrined to see the heavenly city. "I say, if some soul entering heaven hould happen to leave the gate ajar, and these faithful creatures should quietly walk in, it would not at all disturb heaven.
